AN INTERNATIONAL TEAM SCIENCE

The CCSN High Performance Electrical NeuroImaging (HPEN) Laboratory, aims to facilitate and create new interdisciplinary learning opportunities in social neuroscience, electrical neuroimaging and supercomputing for scientists, students and teachers at the University of Chicago and beyond. If you wish to be involved in HPEN mission, please contact us at: hpen@uchicago.edu

LAB NEWS

• A team of researchers, directed by Pamela Qualter, from UK will perform a scientific experiment in the lab for two weeks (UC IRB#13-1076).
• Starting in October, HPEN Lab meetings will be held Every Tuesday at 11:00am, Beecher 102
• HPEN helpdesk is available at: hpenhelpdesk@uchicago.edu

Selected list of scientific publications that might be of interest to HPEN Community (alphabetic order):

Stress and Neuroinflammation (2013)
Grippo, A.J., & Scotti, M.A
Inflammation in Psychiatry; Halaris A, Leonard BE (eds), 28, pp 20-32

Automatic Substrates of the Response to Pups in Prairie Voles (2013)
Kenkel, W.M., et al.
PLOS ONE, 8: e69965

Structural neuroimaging of social cognition in progressive non-fluent aphasia and behavioral variant of frontotemporal dementia (2013)
Couto, B., et al.
